

# Home School Programs

Listed topics and times are flexible  
Please contact Shelli Costa, Director of Education at  
(508) 636-3016 ext. 1006 to schedule a program.

## Watershed Wonders

Students learn about the water cycle and watersheds through the use of one of our interactive models.

Suggested Time: 1 hour-1.5 hours  
(\$75 to \$110)

## Hands-On Natural Science Outdoors

Groups can head out on a nature exploration to supplement the science activities you may be covering at home.

Suggested Time: 1 hour (\$75)

## Ospreys are Special

Students will have a chance to learn about habitats, food webs and ways that pollution enters our streams.

Suggested Time: 1 hour (\$75)

## Vernal Pool Investigations

Participants will learn about the importance of seasonal wetlands for animals such as frogs, salamanders and fairy shrimp.

Suggested Time: 1 hour (\$75)

## Seining in the Westport River

Join us along the Westport River and use our net to uncover the creatures that call the river home. Participants enjoy seeing animals such as: eels, fish, crabs and more.

Suggested Time: 1.5 hours (\$130)

## Dune Hike

Discover the ecology of the dunes and learn about their local history.

Suggested Time: 1.5 hours (\$110)

## Stream Ecology

Students will conduct a stream study, measuring the velocity of a river, temperature, depth and create a profile for the stream that they study.

Suggested Time: 1.5 hours (\$110)

## Plankton Study

During this field study trip we will use a net to collect and identify plankton.

Suggested Time: 1.5 hours (\$110)
